CONNECTED TRANSACTIONS AND DISCLOSEABLE TRANSACTIONS CNNC (ZHEJIANG) NUCLEAR TECHNOLOGY APPLICATION INDUSTRIAL INVESTMENT FUND PARTNERSHIP AGREEMENT

PARTNERSHIP AGREEMENT

On 28 August 2026, the Board of the Company has approved the Company's entering into of the Partnership Agreement with CNNC, CNNC Capital, CNNC Fund, National Industrial Investment Fund, Zhejiang Province Entrepreneurship Risk Investment Guide Fund, Jiaxing Changchuang Industrial Investment, and Haiyan County State-owned Assets Investment.

IMPLICATIONS OF THE LISTING RULES

As at the date of this announcement, CNNC directly and indirectly holds approximately 73.83% of the Company's total issued share capital through CIAE, NPIC, CNNC Fund and CNNC 404, and is the controlling Shareholder and a connected person of the Company. CNNC Capital and CNNC Fund are wholly-owned subsidiaries of CNNC. Therefore, CNNC Capital and CNNC Fund are associates of CNNC and constitute connected persons of the Company under Chapter 14A of the Listing Rules. Accordingly, the entering into of the Partnership Agreement and the transactions contemplated thereunder constitute connected transactions of the Company.

As one or more of the applicable percentage ratios of the transactions under the Partnership Agreement exceed 5% but are less than 25%, the transactions contemplated thereunder are subject to the reporting, announcement, annual review and independent shareholders' approval requirements under Chapter 14A of the Listing Rules. The entering into of the Partnership Agreement and the transactions contemplated thereunder also constitute discloseable transactions of the Company.

EXTRAORDINARY GENERAL MEETING

The Company will convene an extraordinary general meeting for the Independent Shareholders to consider and approve, by way of ordinary resolution, the Partnership Agreement and the transactions contemplated thereunder. The Independent Board Committee of the Company will advise the Independent Shareholders on the Partnership Agreement and the transactions contemplated thereunder, and has appointed Rainbow Capital as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders on the Partnership Agreement and the transactions contemplated thereunder.

A circular, containing details of the Partnership Agreement and the transactions contemplated thereunder, the letter from the Independent Board Committee and advice from Rainbow Capital, will be despatched to the Shareholders within 15 working days after the date of this announcement.

The Directors (excluding the independent non-executive Directors, whose opinions will be formed after taking into account the advice of the independent financial adviser) consider that the terms of the Partnership Agreement have been determined after arm's length negotiations on normal commercial terms, and that the transactions contemplated thereunder are fair and reasonable, will be entered into in the ordinary and usual course of business of the Group, and are in the interests of the Company and the Shareholders as a whole.

I. INTRODUCTION

On 28 August 2026, the Board approved the Company's entering into of the Partnership Agreement with CNNC, CNNC Capital, CNNC Fund, National Industrial Investment Fund, Zhejiang Province Entrepreneurship Risk Investment Guide Fund, Jiaxing Changchuang Industrial Investment, and Haiyan County State-owned Assets Investment.

II. MAJOR TERMS OF THE PARTNERSHIP AGREEMENT

Parties: CNNC Fund (as the general partner)
The Company (as the limited partner)
CNNC (as the limited partner)
CNNC Capital (as the limited partner)
National Industrial Investment Fund (as the limited partner)
Zhejiang Province Entrepreneurship Risk Investment Guide Fund (as the limited partner)
Jiaxing Changchuang Industrial Investment (as the limited partner)
Haiyan County State-owned Assets Investment (as the limited partner)

Name of partnership:	CNNC (Zhejiang) Nuclear Technology Application Industrial Investment Fund Partnership (Limited Partnership)
Place of registration:	Jiaxing City, Zhejiang Province
Amount of contribution:	The total capital contributions proposed to be committed by the partners are RMB3,000 million, of which CNNC Fund proposes to commit RMB30 million (representing 1%), the Company proposes to commit RMB400 million (representing 13.33%), National Industrial Investment Fund proposes to commit RMB1,000 million (representing 33.33%), CNNC proposes to commit RMB200 million (representing 6.67%), CNNC Capital proposes to commit RMB170 million (representing 5.67%), Zhejiang Province Entrepreneurship Risk Investment Guide Fund proposes to commit RMB400 million (representing 13.33%), Jiaxing Changchuang Industrial Investment proposes to commit RMB400 million (representing 13.33%), and Haiyan County State-owned Assets Investment proposes to commit RMB400 million (representing 13.33%). The contribution to the Fund was determined by the Parties after arm's length negotiations with reference to the capital requirements of the Fund. The Company intends to finance its capital contribution from the internal resources of the Group. The Company will not consolidate its financial statements with those of the Fund.
Method of contribution:	All partners shall make contributions to the Fund in RMB in cash in accordance with the notice of payment of contribution given by the executive partner to the limited partners. The date of receipt of funds specified in the notice of payment of the first contribution is the first closing date. All partners shall pay their subscribed capital contributions in full in two instalments during the investment period, with 40% and 60% of their respective subscribed capital contributions payable in the first and second instalments, respectively.
Liabilities of the partners for the debts of the Fund:	The general partner assumes unlimited joint and several liability for the debts of the Fund, and the limited partners are responsible for the debts of the Fund to the extent of the amount of capital contribution committed by them.
Purpose and scope of investment:	Engaging in investment activities, primarily through the acquisition, holding and disposal of interests in investment portfolios, to generate investment returns for the partners. The Fund will invest in the application areas of nuclear technology, including the production and preparation of isotope, nuclear medical equipment and innovative pharmaceuticals, industrial irradiation and inspection, security inspection and protection, as well as related applications and key upstream and downstream segments of nuclear technology in the industrial, agricultural, medical, environmental protection and security fields.

Investment strategy and target sectors	100% of the Fund's investments shall be made in the nuclear technology application sector, including the production and preparation of isotopes, nuclear medical equipment and innovative pharmaceuticals, industrial irradiation and inspection, security screening and protection, as well as relevant applications of nuclear technology in the industrial, agricultural, medical, environmental protection and safety sectors, together with key upstream and downstream links. Specifically, the Fund intends to focus primarily on the following three investment tracks: The Fund's investment strategy is to identify and invest in enterprises and projects in the foregoing fields with technological competitiveness, commercialisation potential and growth prospects so as to generate investment returns.

Investment track	Principal investment focus
Isotope production and preparation	Isotope production reactors, accelerator-based isotope production, isotope extraction from spent fuel and large-scale production of stable isotopes, with a focus on securing scarce upstream production capacity and strengthening domestic isotope supply
Nuclear medical and high-end equipment	Innovative radiopharmaceuticals, large-scale nuclear medical equipment, high-end irradiation equipment, security inspection equipment and radiation monitoring equipment, with a focus on technological innovation, domestic substitution and commercialization
Key components and upstream materials	Key components, critical upstream materials and other technologies relevant to nuclear technology applications and emerging industries, with a focus on addressing technological bottlenecks and capturing valuation upside from technological breakthroughs

Investment targets selection criteria	The Fund intends to invest principally in mature-stage and growth-stage projects, while allocating a relatively smaller portion of its capital to seed-stage projects.

For mature-stage projects, the Fund will generally prioritise established nuclear technology application enterprises with validated business models, stable management and technical teams, established customer bases and revenue streams, positive or near-positive cash flow, competitive positions in their respective market segments and identifiable exit prospects, including the potential for an IPO or industrial acquisition within approximately three to five years.

For growth-stage projects, the Fund will primarily focus on sectors with relatively clear growth prospects, including innovative radiopharmaceuticals, nuclear medical equipment and irradiation applications. Target companies would generally be expected to have products that have reached the clinical, pilot production or more advanced stages, or have otherwise achieved commercial validation; possess proprietary intellectual property or identifiable technological barriers; have management teams with both research and development capability and commercial experience; demonstrate a clear path to profitability; and possess differentiated competitive advantages and the potential to become leading participants in their respective market segments.

For seed-stage projects, the Fund will selectively invest in commercialisable technological achievements originating from national research institutes and research institutes affiliated with central state-owned enterprises, particularly technologies which may address strategically important technological bottlenecks in the nuclear technology application industry. Such investments are intended to provide long-term capital support for the commercialisation of original and potentially disruptive technologies.

Deployment plan

The Fund has an investment period of four years from the first closing date. The partners are expected to contribute their respective capital commitments in two instalments of 40% and 60%. Other than the first instalment, CNNC Fund may generally initiate the subsequent capital call only after 80% of the preceding contribution has been utilised or reserved for investments approved by the investment committee, Fund expenses or other permitted purposes. Accordingly, capital will be deployed progressively by reference to the actual progress of suitable investments.

During the investment period, the Fund is expected to deploy capital substantially in accordance with the three-track allocation and to maintain a diversified portfolio across different stages of development, with mature-stage and growth-stage investments forming the principal part of the portfolio and seed-stage projects accounting for a relatively limited portion.

Business scope:	Engaging in activities including equity investment, investment management and asset management through private equity funds (business activities can only be conducted after completing registration and filing with the Asset Management Association of China) (except for projects subject to approval according to law, business activities shall be carried out independently according to the business license) (subject to the business scope as finally approved by the company registration authority).
Term of operation:	Long-term, starting from the date of issuance of the first business licence of the Fund.
Valid duration, investment period, exit period and extension period:	The "valid duration" is eight (8) years from the first closing day; The "investment period" is four (4) years from the first closing day; The "exit period" commences on the day after the expiry of the investment period and ends on the expiry date of the valid duration; Subject to the operational needs of the Fund, the valid duration may be extended with the consent of partners holding more than two-thirds of the partnership interests of all partners (including the National Industrial Investment Fund). The partnership may extend the valid duration up to two times, with each extension not exceeding one year (the extension period may apply to the investment period and the exit period).
Implementation of partnership affairs:	The general partner acts as executive partner to implement partnership affairs.

Management fees: As consideration for the daily operation and investment management services provided by the fund manager to the Fund, all parties have agreed that the management fees shall be paid by the Fund to CNNC Fund in accordance with the following arrangements:

(1) During the investment period (including any extension of the investment period), the annual management fee shall be 1.8% of the total paid-in capital contribution amount;

(2) From the day after the expiry of the investment period to the expiry date of the valid duration (excluding any extension of the exit period), the annual management fee shall be 1.5% of the total investment principal amount of projects that have not yet been exited;

(3) No management fee shall be charged during any extension of the exit period or during the liquidation period.

Distribution: (I) Cash distribution

1. Distribution of cash income received from investment projects shall be carried out according to the following order:

   (1) Return of capital contribution to each partner.

   (2) If a remaining balance exists, the amount will be distributed as hurdle return to each partner (simple interest at 8%).

   (3) The excess profit will be shared on a pro rata basis. If a remaining balance exists, 20% will be distributed to the general partner; 80% will be distributed to each limited partner in accordance with the relative ratio of the paid-in capital contribution amount by each limited partner.

2. Timing for distribution of cash income:

   In principle, no later than 90 days after the Fund receives the relevant proceeds.

3. Upon expiry or termination and liquidation of the Fund, all investment projects shall be calculated on an aggregate basis, and a final consolidated calculation shall be conducted in accordance with the above distribution principles. If the excess profit actually paid to the general partner exceeds the amount of excess profit it is entitled to receive as calculated based on the above distribution principles after aggregating all investment projects, the general partner shall return the excess amount to the Fund, or such excess amount shall be deducted from the liquidation distribution amount payable to the general partner, and shall be distributed among the partners entitled to receive such distributions in accordance with the above distribution principles. Notwithstanding the foregoing, the general partner's aggregate clawback obligation shall in no event exceed the amount of excess profit actually received by the general partner, net of any taxes paid or payable thereon.

(II) Non-cash distribution

Before completion of the liquidation of the partnership, the executive partner shall make its reasonable endeavours to realize the investments of the partnership and avoid making non-cash distribution. However, if the investments cannot be realised or if, in the opinion of the executive partner, non-cash distribution would better serve the interests of all partners, such distribution shall be made in non-cash form upon unanimous consent of all partners.

Except for assets with a readily ascertainable market price, the value of all assets distributed in non-cash form pursuant to the above arrangements shall be determined by reference to the valuation prepared by a professional valuer being an Independent Third Party, designated by the executive partner.

The proportion, method and other arrangements for non-cash distributions shall be governed by the provisions applicable to cash distributions.

Management and decision-making:	CNNC Fund, as the executive partner and fund manager, is responsible for the daily operation and investment management of the Fund. The Investment Committee shall be established under the Fund to consider and decide on investment matters relating to investment projects, material post-investment management matters and exit matters. The Investment Committee shall comprise five (5) members. The National Industrial Investment Fund shall be entitled to appoint one (1) member, while the remaining four (4) members shall be nominated by CNNC and its affiliated enterprises. Each member of the Investment Committee shall have one vote. Resolutions of the Investment Committee shall be passed only upon the affirmative votes of no less than four-fifths (4/5) of all members of the Investment Committee. If the Fund's aggregate committed capital contributions to a single investment portfolio exceed 20% of the total capital contributions committed to the Fund, the unanimous consent of the meeting of the Partners shall be required. Following the Fund's investment, the executive partner shall conduct ongoing monitoring on the relevant investment portfolio.
Investment Committee observers:	The Company, the National Industrial Investment Fund, Zhejiang Province Entrepreneurship Risk Investment Guide Fund and Jiaxing Changchuang Industrial Investment shall each be entitled to appoint one observer. Observers may attend meetings of the Investment Committee but shall not participate in the Investment Committee's decision-making. They shall, however, be entitled to monitor compliance in relation to meeting notices, the materials submitted to the Investment Committee for decision-making, the investment decision-making procedures and other related matters.
Governing law:	The Partnership Agreement shall be governed by the laws of the PRC.
Dispute resolution:	Any dispute shall be submitted to the Beijing Arbitration Commission by the parties for arbitration in Beijing in accordance with the arbitration rules of the Commission.

The terms of the Partnership Agreement are determined after arm's length negotiations among the parties.

III. REASONS AND BENEFITS FOR ENTERING INTO THE PARTNERSHIP AGREEMENT

The Fund has clearly defined investment scope and focuses on the nuclear technology application sector, including the production and preparation of isotopes, nuclear medical equipment and innovative drugs, industrial irradiation and inspection, security inspection and protection, as well as relevant applications of nuclear technology in the industrial, agricultural, medical, environmental protection and safety fields, together with key upstream and downstream links. The aforementioned investment directions are consistent with the Company's existing business layout and its long-term strategic development direction. As a leading enterprise in the nuclear technology application field in China, the Company intends to leverage the investment deployment of the Fund across the niche segments of the nuclear technology application industry to create the synergistic effect of the "fund + industry" model. This will enable the Company to indirectly participate in the innovation and incubation of cutting-edge technologies, thereby reducing the cost of trial and error in independent research and development. Through the Fund, in addition to obtaining financial returns, the Company may secure preferential access to project cooperation rights, results commercialization rights and even strategic merger and acquisition opportunities, and rapidly transform external innovative achievements into new growth drivers for its own business. Leveraging the Fund's industry events, project cooperation and other platforms, the Company may strengthen its exchanges and cooperation with peers and upstream and downstream enterprises along the industry chain, expand the scope for business cooperation, and empower its long-term development.

Pursuant to the currently applicable state-owned capital management system, if the Company makes direct investments, such investments would, in principle, be required to fall within the scope of the Company's principal business. In addition, from the formation of an investment intention and project initiation through to the finalisation of the investment decision, the Company is required to undergo relatively complex internal decision-making and external approval procedures, with the overall process generally taking approximately 8 to 12 months. Therefore, if the Company conducts investments primarily for the purpose of obtaining investment returns, the direct investment approach would entail relatively higher procedural and time costs. In contrast, through participation in the Fund, the Company's investment capital is deployed by the Fund in a unified manner for project screening, investment decision-making and investment implementation, pursuant to the established investment strategy stipulated in the Partnership Agreement and under the decision-making and management mechanism of the meeting of the partners, the Investment Committee and the fund manager. Based on the past experience of similar funds, investments made through a fund generally take an average of approximately 3 to 4 months from project initiation to the completion of the investment decision. Accordingly, participation in the Fund helps to significantly reduce the procedural and time costs in the investment decision-making process and improve the efficiency of capital allocation and utilisation.

As to the risks in connection with the entering into the Partnership Agreement, the Company makes a relatively substantial investment in the Fund, with investment capital mainly to be recovered through exits from projects invested by the Fund; given the Fund's four-year investment period and four-year exit period, with project exits concentrated in the latter part of the exit period, the Company's investment may entail a lengthy capital recovery cycle, which may impair capital utilisation efficiency and give rise to the risk of long-term capital tie-up. In addition, the nuclear technology application sector features long research and development and commercialisation cycles, slow market cultivation and high susceptibility to policies and standards, and when compounded by technological iteration, cost volatility, insufficient capacity roll-out and mismatches between the Fund's term and expected project exits, there exists a risk that investment returns may fall short of expectations.

In assessing the Partnership Agreement, the Directors have considered, among other things:

(a) the close alignment between the Fund's exclusive focus on the nuclear technology application industry and the Group's existing businesses and long-term development strategy;

(b) the potential financial returns and strategic benefits;

(c) the CNNC Fund's accumulated extensive experience and project sourcing capabilities in the relevant industry;

(d) the benefits of obtaining diversified exposure to projects across different sub-sectors and stages of development through a professionally managed investment platform, as compared with the Group independently sourcing and managing a broad portfolio of minority investments;

(e) the investment restrictions, diversification measures, staged capital contribution mechanism, reporting arrangements and other investor protection mechanisms under the Partnership Agreement; and

(f) the risks associated with the investment.

The Directors have also considered the amount of the Company's capital commitment relative to the Fund's total committed capital, as well as the Group's existing cash resources, liquidity position and anticipated capital expenditure requirements, and are of the view that the capital commitment will not have a material adverse impact on the Group's operations or financial position. Having balanced the benefits and risks and made all reasonable enquiries, the Directors are of the view that the Company's participation in the Fund represents a commercially reasonable means of obtaining financial and strategic exposure to investment opportunities in the nuclear technology application industry, and that the terms of the transaction are fair and reasonable and are in the interests of the Company and its shareholders as a whole.

IV. IMPLICATIONS OF THE LISTING RULES

As at the date of this announcement, CNNC directly and indirectly holds approximately 73.83% of the Company's total issued share capital through CIAE, NPIC, CNNC Fund and CNNC 404, and is the controlling Shareholder and a connected person of the Company. CNNC Capital and CNNC Fund are wholly-owned subsidiaries of CNNC. Therefore, CNNC Capital and CNNC Fund are associates of CNNC and constitute connected persons of the Company under Chapter 14A of the Listing Rules. Accordingly, the entering into of the Partnership Agreement and the transactions contemplated thereunder constitute connected transactions of the Company.

As one or more of the applicable percentage ratios of the transactions under the Partnership Agreement exceed 5% but are less than 25%, the transactions contemplated thereunder are subject to the reporting, announcement, annual review and independent shareholders' approval requirements under Chapter 14A of the Listing Rules. The entering into of the Partnership Agreement and the transactions contemplated thereunder also constitute discloseable transactions of the Company.

V. EXTRAORDINARY GENERAL MEETING

The Company will convene an extraordinary general meeting for the Independent Shareholders to consider and approve, by way of ordinary resolution, the Partnership Agreement and the transactions contemplated thereunder. The Independent Board Committee of the Company will advise the Independent Shareholders on the Partnership Agreement and the transactions contemplated thereunder, and has appointed Rainbow Capital as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders on the Partnership Agreement and the transactions contemplated thereunder.

A circular, containing details of the Partnership Agreement and the transactions contemplated thereunder, the letter from the Independent Board Committee and advice from Rainbow Capital, will be despatched to the Shareholders within 15 working days after the date of this announcement.

The Directors (excluding the independent non-executive Directors, whose opinions will be formed after taking into account the advice of the independent financial adviser) consider that the terms of the Partnership Agreement have been determined after arm's length negotiations on normal commercial terms, and that the transactions contemplated thereunder are fair and reasonable, will be entered into in the ordinary and usual course of business of the Group, and are in the interests of the Company and the Shareholders as a whole.

VI. GENERAL INFORMATION

The Company

Focusing on the two major industrial directions of nuclear healthcare and irradiation application, the Company is committed to providing integrated solutions for nuclear medicine and radiotherapy, as well as radiation technology promotion and application, forming a "6+N" industrial layout with six major businesses as the core, including nuclides, nuclear medicines, nuclear medical equipment, integrated solutions for nuclear medicine, radioactive source and application, and irradiation application.

CNNC

China National Nuclear Corporation (中國核工業集團有限公司), a company established under the laws of the PRC on 29 June 1999, is the controlling shareholder of the Company. The ultimate beneficial owner of CNNC is the State-owned Assets Supervision and Administration Commission of the State Council.

CNNC Capital

CNNC Capital (formerly known as China National Nuclear Industry Construction Corporation Capital Holdings Limited (中國核工業建設集團資本控股有限公司)) was established in July 2016 with a registered capital of RMB7.38 billion. It is a wholly-owned subsidiary of China National Nuclear Corporation and a financial services and specialized capital operation platform. Its principal business activities include corporate management, management consulting, investment activities using proprietary funds, asset management services for investments made using proprietary funds and information consultancy services. CNNC Capital has developed a comprehensive industry-finance business cluster featuring synergies across investment, financial leasing, asset management, insurance and carbon asset management (投－租－理－險－碳), with business operations covering financial leasing, industrial funds, commercial factoring, insurance brokerage, captive insurance and carbon asset management. The ultimate beneficial owner of CNNC Capital is the State-owned Assets Supervision and Administration Commission of the State Council.

CNNC Fund

CNNC Fund (formerly known as CNNC Industrial Fund Management (Beijing) Co., Ltd. (中核產業基金管理(北京)有限公司)) was established on 4 July 2011 with a registered capital of RMB150 million. It is a wholly-owned subsidiary of CNNC Capital and is a licensed private equity fund management institution. Its principal business activities include non-securities investment management, consultancy and project investment, with a primary focus on equity investments across the upstream and downstream segments of the nuclear industry, including nuclear healthcare, nuclear technology applications and nuclear power. The ultimate beneficial owner of CNNC Fund is the State-owned Assets Supervision and Administration Commission of the State Council.

As a private equity fund manager, CNNC Fund has long-term in-depth engagement in the nuclear technology application industry. As of 31 December 2025, CNNC Fund had successfully operated 8 funds, with the paid-in size of funds under management amounting to RMB4,823 million. In 2024, CNNC Fund received the "Excellent Management Team Award for State-owned Capital Funds" and the "Top 10 Excellent Investment Case Awards for State-owned Capital" from the Central SOE Investment Association; in 2024 and 2025, CNNC Fund was awarded the "Excellent Innovation Investment Case Award for State-owned Capital" by the Central SOE Investment Association for two consecutive years.

National Industrial Investment Fund

The National Industrial Investment Fund was established on 20 March 2025 with a registered capital of RMB59.6 billion. The National Industrial Investment Fund conducts equity investment, investment management and asset management business in the form of a private investment fund. There is no shareholder holding 30% or more of the equity interest in the National Industrial Investment Fund, and the single largest shareholder is the Ministry of Finance (holding approximately 21% of the shares).

Zhejiang Province Entrepreneurship Risk Investment Guide Fund

Zhejiang Province Entrepreneurship Risk Investment Guide Fund was established on 27 February 2009, with a registered capital of RMB5 billion. Focusing on the development of Zhejiang Province's "315" Scientific and Technological Innovation System, future industries and other priority sectors, the company invests in key technological innovation projects through cooperation with market-oriented institutions, with a particular focus on supporting early-stage and small enterprises, providing patient capital, and investing in hard technology, innovation platforms and innovative talent, thereby facilitating the commercialisation of scientific and technological achievements and fostering the development of new quality productive forces in light of local conditions. Its ultimate beneficial owner is Zhejiang Innovation Investment Group Co., Ltd. (浙江省創新投資集團有限公司), a state-owned enterprise in Zhejiang Province.

Jiaxing Changchuang Industrial Investment

Jiaxing Changchuang Industrial Investment was established on 9 April 2026 as an industrial chain fund with a target fund size of RMB3 billion established by the Jiaxing Municipal Finance Bureau. Focusing on Jiaxing's "135N" advanced manufacturing clusters, the fund aims to accelerate the development of a modern industrial system and promote the extension, supplementation and strengthening of industrial chains. Jiaxing Changtou Venture Capital Co., Ltd. (嘉興長投創業投資有限公司) serves as the manager, executive partner and general partner of the fund. Its ultimate beneficial owner is Jiaxing Yangtze River Delta Innovation Investment Group Co., Ltd. (嘉興長三角創新投資集團有限公司), a state-owned enterprise based in Jiaxing.

Haiyan County State-owned Assets Investment

Haiyan County State-owned Assets Investment was established on 23 June 2015 with a registered capital of RMB10 million. Guided by the operating philosophy of "market-orientation, specialisation and standardisation", the company focuses on areas including industrial investment, capital operation, asset management and financial services, and is committed to supporting local industrial transformation and upgrading and the development of emerging industries through equity investments, fund cooperation and industrial guidance. Its ultimate beneficial owner is Haiyan County State-owned Industrial Investment Group Co., Ltd. (海鹽縣國有產業投資集團有限公司), a state-owned enterprise in Haiyan.

DEFINITIONS

In this announcement, unless the context otherwise requires, the following terms and expressions have the meanings set forth below:

"Articles of Association"	The articles of association of the Company, as amended from time to time
"associate(s)"	has the meaning ascribed thereto under the Listing Rules
"Board"	the board of directors of the Company
"CIAE"	China Institute of Atomic Energy
"CNNC"	China National Nuclear Corporation (中國核工業集團有限公司, previously known as "中國核工業集團公司"), a company established under the laws of the PRC on 29 June 1999, the controlling Shareholder of the Company
"CNNC 404"	CNNC 404 Company Limited
"CNNC Capital"	CNNC Capital Holdings Limited (中國核工業集團資本控股有限公司)

"CNNC Fund"	CNNC Industrial Fund Management Co., Ltd.(中核產業基金管理有限公司)
"Company"	China Isotope & Radiation Corporation
"Company Law"	the Company Law of the PRC
"connected person(s)"	has the meaning ascribed thereto under the Listing Rules
"Director(s)"	director(s) of the Company
"Domestic Share(s)"	domestic share(s) in the share capital of the Company with a nominal value of RMB1.00 each, which are subscribed for or credited as paid in RMB
"Fund"	CNNC (Zhejiang) Nuclear Technology Application Industrial Investment Fund Partnership (Limited Partnership) (中核(浙江)核技術應用產業投資基金合夥企業(有限合夥)) (tentative name, subject to the final approval of the company registration authority), proposed to be established pursuant to the Partnership Agreement
"Group"	the Company and its subsidiaries
"H Share(s)"	overseas listed foreign share(s) in the share capital of the Company with a nominal value of RMB1.00 each which are subscribed for and traded in HK$ and listed on The Stock Exchange of Hong Kong Limited
"Haiyan County State-owned Assets Investment"	Haiyan County State-owned Assets Investment Co., Ltd. (海鹽縣國有資本投資有限公司)
"HK$"	Hong Kong dollars, the lawful currency of Hong Kong
"Hong Kong"	Hong Kong Special Administrative Region of the PRC
"Independent Board Committee"	the independent board committee of the Board, comprising Mr. Poon Chiu Kwok, Ms. Chen Jingshan, Mr. Lu Chuang and Mr. An Rui, all being the independent non-executive Directors of the Company
"Independent Financial Adviser" or "Rainbow Capital"	Rainbow Capital (HK) Limited
"Independent Third Party(ies)"	independent third party(ies) who is/are not connected person(s) of the Company and its subsidiaries, and is/are independent of the Company and its connected person(s) (as defined in the Listing Rules)

"Jiaxing Changchuang Industrial Investment"	Jiaxing Changchuang Industrial Investment Equity Investment Partnership (Limited Partnership) (嘉興長創產投股權投資合夥企業(有限合夥))
"Listing Rules"	the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited
"NPIC"	Nuclear Power Institute of China
"Partnership Agreement"	the Partnership Agreement of CNNC (Zhejiang) Nuclear Technology Application Industrial Investment Fund Partnership (Limited Partnership) (中核(浙江)核技術應用產業投資基金合夥企業(有限合夥)合夥協議) proposed to be entered into by and among the Company, CNNC Fund, CNNC, CNNC Capital, National Industrial Investment Fund, Zhejiang Province Entrepreneurship Risk Investment Guide Fund, Jiaxing Changchuang Industrial Investment and Haiyan County State-owned Assets Investment
"PBOC"	the People's Bank of China, the central bank of the PRC
"PRC" or "China"	the People's Republic of China, excluding, for the purpose of this announcement only, Hong Kong, Macau Special Administrative Region and Taiwan
"RMB"	Renminbi, the lawful currency of the PRC
"Share(s)"	the ordinary shares in the capital of the Company with a nominal value of RMB1.00 each, comprising the Domestic Shares and the H Shares
"Shareholder(s)"	shareholder(s) of the Company
"Transactions"	The proposed total capital contributions committed by the Company, CNNC Fund, CNNC, CNNC Capital, National Industrial Investment Fund, Zhejiang Province Entrepreneurship Risk Investment Guide Fund, Jiaxing Changchuang Industrial Investment and Haiyan County State-owned Assets Investment to the Fund are RMB3,000 million, of which CNNC Fund proposes to commit RMB30 million (representing 1%), the Company proposes to commit RMB400 million (representing 13.33%), National Industrial Investment Fund proposes to commit RMB1,000 million (representing 33.33%), CNNC proposes to commit RMB200 million (representing 6.67%), CNNC Capital proposes to commit RMB170 million (representing 5.67%), Zhejiang Province Entrepreneurship Risk Investment Guide Fund proposes to commit RMB400 million (representing 13.33%), Jiaxing Changchuang Industrial Investment proposes to commit RMB400 million (representing 13.33%), and Haiyan County State-owned Assets Investment proposes to commit RMB400 million (representing 13.33%).

"Zhejiang Province Entrepreneurship Risk Investment Guide Fund"	Zhejiang Province Entrepreneurship Risk Investment Guide Fund Management Limited (浙江省創業風險投資引導基金管理有限公司)

By order of the Board
China Isotope & Radiation Corporation
Xiao Yafei
Chairman

Beijing, the PRC, 28 August 2026

As at the date of this announcement, the Board comprises Mr. Xiao Yafei and Ms. Huo Yingying as executive Directors; Mr. Chen Zan, Mr. Ding Jianmin, Mr. Zhang Guoliang and Ms. Chang Jinyu as non-executive Directors; and Mr. Poon Chiu Kwok, Ms. Chen Jingshan, Mr. Lu Chuang and Mr. An Rui as independent non-executive Directors.
